

Over 20 inspiring
ways to add
impact, style and
easy updates.

By Deborah Jane Goon

Love Your Space

“This world is but a canvas
to our imaginations.”
Henry David Thoreau

Dressing your home need not be a distressing experience. Take inspiration from this selection of 24 good-lookers, categorised by room. Inject a fresh burst of life with bold shades, textured fabrics and upholstery, decadent prints and eye-catching décor.

The main thing about décorating your space revolves around finding that unique balance between functionality and form. Achieving a great-looking, highly functional space, must include:

1. One or two main colours to keep the space anchored.
2. Functional pieces that look good and work well.
3. Good proportions or the room ends up looking and feeling cumbersome.
4. Ample light and air flow or you end up with musky, foul-odours.
5. Practical materials that suit your climate and space.

Design: Space One I.D

Monochromatic mix

Perfectly sculptured like a page out of a decadent furniture catalogue, this poised living room is all about coordinating prints, textile surfaces and attention to detail. The floral poufs are perfect as extra seating against the graphic custom-designed carpet.
